## The Journey

The Academy High School is an alternative high school campus of choice which serves students who are seeking a smaller, more accelerated self-paced academic program.

From the conception of the Academy High School in the fall of 2000, its commitment to address the individual needs of all learners continues to be the main focus of the campus.

### Academy High School offers:

- Fully accredited high school curriculum
- Highly qualified staff
- Small learning community
- Accelerated courses and dual credit offerings
- Smaller class sizes with both traditional and computerized self-paced classes
- TAKS tutoring classes
- Advisory classes with the same advisor throughout enrollment at Academy High School
- Hays/Caldwell Alcohol & Drug Abuse Counselor

## The Course Choices

### Traditional Courses

Many courses are offered in the traditional classroom setting. Most of the core academic courses are taught in this fashion; however, hands on instruction and project based learning are emphasized.

### Self-Paced Courses

Another type of instruction offered at the Academy High School is self-paced computer-based curriculum. This path may be used along with the traditional course offerings.

### Dual Credit Courses

Academy High School also offers Dual Credit courses on campus. Dual Credit course offerings will vary by semester. Check with the campus to find out what is currently offered.

The Mission of Academy High School:

- ◆ To create a productive "Learning Community"
- ◆ To encourage the exploration and desire for knowledge
- ◆ To help students achieve academic success

## The Process

- Any Hays CISD high school student who has earned 6 credits may apply.

Academy High School applications may be picked up from the home campus counselor or downloaded from the HCISD website. You can find the application and the teacher recommendation forms online.

<http://www.hayscisid.net/schools/AAH/index.htm>

- Complete and return the application. Applications will not be considered until all required information is submitted. .
- Upon review of student's application, an invitation to interview with the campus principal will be arranged.

## Academy High School Student Profile

### A student who :

- has at least 6 credits on their home campus
- has a desire to succeed in an alternative learning style and environment
- may want to accelerate their pace toward graduation
- may need to earn credits in order to graduate on time
- may have experienced a personal, family, or health issue which has hindered academic success and/or attendance
